

PRODUCT SPECIFICATION SHEET

DESIGNER RANGE - MINI TOWER PACKAGE

Combined with a TFT display, enhanced keyboard and optical mouse these packages provide designer styling with fast performance and maximum expandability.

As an alternative to the multimedia, space-saving 15" TFT, our Designer mini tower packages are also available with a standard 17" or 19" CRT Monitor

IN DETAIL ● ● ●

The Conquest Wildman Designer Tower Package is an affordable, high performance complete computer system. The mini tower case has maximum room for future expandability, whilst maintaining a designer styling, and easy access to all front mounted drives and accessories.

These computer systems are very robust, and because they are assembled from the highest quality components from market leaders such as Intel, 3com, Seagate, LG, Pioneer and Sony you can expect a reliable system with a long life expectancy.

Cutting edge features such as the front facing USB ports and the Logitech enhanced keyboard and optical cordless mouse make this computer system a sensible choice for work, home or even light industrial environments.

When combined with an ultra modern TFT display, the Conquest Wildman Designer Mini Tower Package provides the best of both worlds - stylish design and fast performance, at an affordable price.

- **High performance**
- **Maximum expandability**
- **Designer Styling**
- **Optical cordless mouse**
